

**Kimberly Williams**, Owner/Director

In 2007, I started South Sound Medical Billing with a great vision of partnering with medical providers in the South Sound. Outsourcing medical billing cuts overhead and increases income.

As your billing specialist, I work hard as an advocate for your patients and diligently work with insurance companies, so claims are processed correctly and in a timely manner.

Because health plans are constantly changing, I regularly attend seminars to keep up with the never ending changes, decreasing billing issues. I strive to be a more efficient and cost effective solution, by providing you my expertise in the medical billing field.

If you have any questions about my services and how I can help your business, please feel free to call. I look forward to working with you.
